Sheik Mahaboob Subhani

Bhimavaram, Andhra Pradesh, India
+91 7075899966 — skmahaboobsubhani62@gmail.com
github.com/mahaboobsub — linkedin.com/in/sheik-mahaboob-subhani

Education

B.Tech in Computer Science and Engineering
DNR College of Engineering and Technology
2023 – 2026
CGPA: 8.04/10

Diploma in Electronics and Communication Engineering
SMT B. Seetha Polytechnic
2020 – 2023
CGPA: 9.3/10

Technical Skills

Languages
Java, Python, SQL, JavaScript

Core Concepts
OOP, DBMS, ML, DL, RAG

Backend
FastAPI, Node.js, Express.js, REST APIs

Databases
MySQL, Qdrant

Tools
Git, Postman, JIRA

Achievements & Certifications

- Solved 250+ DSA problems.
- Top 12 Finalist in AI for Good Hackathon2.0.
- Oracle Cloud Infrastructure 2025 Generative AI Professional.

Experience

AI & Full Stack Developer Dec 2025 – Present
Ruvinsys Global Solutions

- Designed and implemented an asynchronous 4-agent pipeline using FastAPI, hybrid search, and AI models to generate CBSE-compliant examinations in under 10 seconds.
- Built a custom RAG ingestion pipeline using PyMuPDF and Gemini Vision OCR to process textbooks containing formulas and diagrams into searchable vector embeddings.
- Collaborated with a 4-member team to integrate backend services with a Node.js and Prisma database layer while implementing review workflows and automated testing.

Product Development Intern May 2025 – Jul 2025
National Institute of Technology Andhra Pradesh

- Developed a student dashboard for an AI-powered chatbot platform featuring PDF upload, chat history, and document management capabilities.
- Integrated frontend components with backend APIs and performed API testing using Postman to ensure reliable system functionality.
- Explored RAG, Graph DBs, Vector DBs, and ArXiv API integration for AI-powered retrieval.

Projects

BloodBridge AI (AI-Powered Blood Donation Coordination System)

- Architected a FastAPI backend powered by a 14-node stateful LangGraph agentic pipeline, automating emergency donor matching, chain monitors, and real-time WebSocket dashboard updates.
- Engineered an 8-antigen compatibility scorer using a Neo4j Graph Database (achieving 100ms donor matching) and integrated Vapi.ai for voice call response capture, complying with the DPDP Act 2023.

  Women Fashion Image Recommender System

  – Developed a content-based fashion recommender using VGG16 feature extraction and cosine similarity for image-based outfit recommendations.

  – GitHub: github.com/mahaboobsub/Fashion_Recommendation_System_usin

  Secure Password Manager

  – Developed JWT-based authentication, encrypted credential storage, and secure user management APIs.

  – GitHub: github.com/mahaboobsub/passwordManager-ls
